Hi Hammond Team,

Thank you all for connecting with us earlier! *Recap and a few action items from our call below as promised.*

I'll also be sending a separate, follow-up email with PR materials to Lt. Kellogg so we can get started on the public announcement components ahead of the Onboarding as well.

1. Onboarding

- a) Projected Date: Thursday April 4th
Recommended schedule below:

Session 1: Neighbors Feed @ [930am]

Attendees: PIO, Existing social media users and community outreach team

Session 2: General + Investigations @ [1130am]

Attendees: RTCC, CID, analysts, general

- b) **Scheduling** - I'll be sending over a calendar invite to everyone copied as a placeholder. Once confirmed, please send out your respective internal calendar invites to the team and copy myself + Kyle.Demmin@ring.com

2. Portal Requirements

a) **Account Provisioning** - Attached is an Excel doc outlining what's needed to provision users. Please add everyone that would potentially need an account and send it back our way before the scheduled onboarding. Please note that accounts will NOT be provisioned until after the onboarding and that we will confirm the final provisioning list with you before doing so. Please let me know if you have any questions on this!

b) **Browser Compatibility** - Portal is compatible with Chrome, Firefox, or Edge. Please refrain from using Internet Explorer or any others not listed above.

3. Miscellaneous

- a) **Seed Units** - I will be sending donation devices to Christopher Gootee's attention to 509 Douglas St Hammond, IN 46320 United States and follow up with a shipping confirmation as soon as I receive it!

4. Initial Public Announcement / Ongoing Engagement

Rudy,

Not a problem at all.

In order to get Portal up and running with the press coverage as well, I wanted to offer the opportunity to do a remote training session. The remote onboarding if coupled with the initial press release could go out at the end of March to expedite the process.

If we decide to do the remote training session, Kyle or myself can visit the department for any additional in-person training.

Over the next few months, we will be in that area a few times, so we are happy to stop in to meet the team.

Please let us know what works best for you!

Subject: Hammond PD and "Ring" program

Mayor Thomas M. McDermott, Jr. and the City of Hammond announce that the Hammond Police Department is among the first law enforcement agencies in the State of Indiana to join the Neighbors app by Ring (available via iOS/Android here) to provide Hammond residents with real-time neighborhood crime and safety information. The Neighbors network already has millions of users and has been instrumental in keeping neighborhoods safe.

"The Neighbors app and the city's ongoing partnership with Ring is another effort by my administration to keep Hammond at the forefront of technology to ensure the safety of our residents. This app will provide the police department an additional method of communication within our neighborhoods and will allow our residents to keep their neighbors and our police up to date on what is happening in their part of the city," said Mayor McDermott.

Residents can download the free Neighbors app, join their neighborhood, and use the app to: monitor neighborhood activity; share videos, photos and text-based posts; and receive real-time safety alerts from their neighbors, local law enforcement and the Ring team.

Jamie Siminoff, Chief Inventor and Founder of Ring, said: "Over the past few years we have learned that, when neighbors, the Ring team and law enforcement all work together, we can create safer communities. We're excited to have the Hammond Police Department join Neighbors and applaud City leadership for utilizing this free and effective tool to engage residents with up-to-date local crime and safety information while maintaining neighbor privacy first and foremost."

To help speed up training, they asked if we were interested in remote training. I agreed and can have laptops and the training room available. Looking the week of March 25. Not all week, a few hours for each entity if needed. This is the hands on training portion and can invite more officers/detectives if needed, limited to computers. April 5th Friday, they would come out to Hammond to discuss issues or additional training.

Keep that week open

Hello Rudy,

I wanted to see if you had some availability tomorrow morning to discuss the next steps with Kyle and I. We want to make sure that we can get your department up and running as soon as possible. Would you have time to speak between 930am-11am tomorrow or anytime in the afternoon?

Thank you so much for our time,

Dylan and Kyle

Not a problem at all.

In order to get Portal up and running with the press coverage as well, I wanted to offer the opportunity to do a remote training session. The remote onboarding if coupled with the initial press release could go out at the end of March to expedite the process.

If we decide to do the remote training session, Kyle or myself can visit the department for any additional in-person training.

Over the next few months, we will be in that area a few times, so we are happy to stop in to meet the team.

Please let us know what works best for you!

Problem we have is coordinating with the ring sale program. We really need to get the portal up and running and press released prior to that.

To help speed up training, they asked if we were interested in remote training. I agreed and can have laptops and the training room available. Looking the week of March 25. Not all week, a few hours for each entity if needed. This is the hands on training portion and can invite more officers/detectives if needed, limited to computers. April 5th Friday, they would come out to Hammond to discuss issues or additional training.

Key talking points for you to use during crime watch meetings.

The big thing to express is the last one. You DO NOT need to be a Ring product owner and can post videos from other camera systems. Businesses can participate and utilize the app also. Again they can add video and pictures from their camera systems to help prevent and alert neighbors and the police of suspicious activities.

After so many downloads and registering into the app, the department will get free Ring devices to hand out/raffle/ETC as we see fit. Crime watch meetings, mayors night out, domestic violence victims, ETC.

Spread the word!!

Hi guys,

I think we need to encourage downloading of the Neighbors app from OUR link, not just going to the App Store or Google Play store.

We get free devices for promotions/community giveaways based upon the amount of app downloads from our link only.

The correct link is:
